Introduction

Purpose of this Report

The purpose of this Board Effectiveness Report (this “Report”) is to form the basis upon which your Board can enhance its effectiveness. It highlights areas of strength and areas where improvements can be made. It also acts as a baseline against which to measure the impact of initiatives that will increase board effectiveness and ultimately, organisational performance.

Please Contact Us if you would like additional review procedures (eg. Interviews) or one of our global experts to advise you how to interpret and act on this Report.

Inherent limitations of this Report

This Report reflects the perceptions of your respondents who participated in the Survey during the period leading up to the date of this Report. No steps have been taken by us to verify the accuracy or completeness of the responses of any individual respondents.

This Report and the Survey upon which it is based, by themselves, do not constitute a comprehensive review of the effectiveness of the board.

This Report has been prepared in accordance with our standard terms and conditions. 6. How to interpret this report

This section provides you with advice on how to interpret and act on your Report.

How the benchmarking works

Your Report includes benchmarking in three main areas.

- Overall benchmarking of your board included in Section 1.
- The key factors of effectiveness included in Section 2.
- The benchmarking of each survey item included in Section 4.

Items, factors and overall effectiveness is shown by colour coding as being in the bottom quartile (red), the 2nd and 3rd quartile (beige) or the top quartile (green).

If the average response of your directors to a survey item is sufficiently below the average response of directors of comparable boards your board will be rated in the bottom quartile and will be assigned the colour red in relation to that survey item. If the average response of your directors to another survey item is sufficiently above the average response of directors of comparable boards your board will be rated in the top quartile and will be assigned the colour green in relation to that survey item.

The average response of directors in relation to each survey item differs. Some survey items are much easier to agree with and therefore have a higher average response than other survey items. Conversely, other survey items are much harder to agree with and therefore have a lower average response. This means that there can be different benchmarking for different survey items even if both survey items have the same profile of director responses. It also means that a better looking profile of director responses will not always be associated with a more desirable colour.

If there are one or more outliers in relation to a survey item (ie. with one or more directors more negative than most other directors) those outliers are likely to drag down the average director response. This often results in the relevant item being rated in the bottom quartile and being shown with the colour red.
